Union of Californians for the sake of California.

VOL. 1.

SAN FRANCISCO, NOVEMBER 15, 1849.

NO. 36.

MISCELLANEOUS.

THE QUEEN OF THE WEST.—Cincinnati has become one of the wealthiest cities of the Union, possessing heavier capitalists than Boston. Nicholas Longworth paid a tax last year of \$11,500, while the largest tax paid by any man in Boston was considerably less than \$8000. There are 105 persons who average more than \$1000 each—their aggregate tax being \$110,105. The entire tax of 1810 amounted to only \$2594, of 1820 to \$12,172, of 1830 to \$57,057 of 1840 to \$222,222, and of 1847 to \$475,000.

EXTENT OF KNOWLEDGE IN IRELAND.—We notice in some of our exchange papers, the statement that in Ireland there are 74 towns, each with a minimum of twenty five hundred inhabitants, not one of which contains a bookseller! Scotland, with a third of the population, has three times the number of Booksellers; being in the proportion of nine to one? More remarkable still, there are six counties which cannot boast of even one bookseller or a single circulating library, namely; Donegal, Kildare, Leitrim, Queen's, Westmeath and Wicklow.—Such a state of things certainly needs a revolution; but whether a political change would be for the better, is problematical, at least.

MACAULAY'S HISTORY.—The English publishers of Macaulay's first two volumes of the History of England, are to pay him six hundred pounds sterling a year for ten years, and for this they obtain a ten years' copyright; and this extends only to the two volumes of a work which is to consist of six. The London Athenaeum says that this is perhaps the largest sum ever given for a work of similar extent. If the same terms are agreed upon for the succeeding four volumes, the author will be indeed handsomely remunerated for his labor.

COMPOSITION OF THE BRITISH HOUSE OF COMMONS.—The Lower House of Parliament consists of 658 members—500 English, 53 Scotch and 105 Irish. This body, as its name implies, purports to be the representation of the "commonalty" of the realm, but yet the aristocratic element enters largely into its composition. It contains 36 eldest sons of Peers, who, upon the death of their fathers, will step into the Upper House; 170 brothers, younger sons and immediate relatives of Peers, and 167 other members, who by birth or marriage are connected with the nobility.

RIVER AND LAKE COMMERCE.—In 1847 as reported to the Chicago River and Harbor Convention, 1209 steamboats, with 17,000 men, were employed on the western rivers. This was exclusive of 4,000 keel or flat-boats and their crews. The inland commerce of the country was then estimated at near \$440,000,000; being nearly DOUBLE our whole foreign commerce.

STEAMBOAT EXPLOSIONS.—Since the year 1846, there have been 238 explosions on board of steamboats in the United States, destroying property valued at over \$3,000,000, the lives of 2,566 persons, and wounding 2,097 others. There were 12 explosions in 1848.

The Hungarian leader, Kossuth, has appointed his sister general superintendent of the military hospitals, and she has published an address, calling on all the ladies to lend their assistance in this work of charity.

Our Paper.

Our friends here and on the Atlantic side will understand, we trust, that nothing but sheer necessity compels us, much to our regret and inconvenience, to publish our tri-weekly edition upon three foolscap sheets, instead of one more suitable size. Our most pressing orders have now been out for several weeks in all directions from Honolulu to New York for printing paper of a proper size, and we go on from week to week in our present form in daily expectation of its arrival. From the very commencement of our publication the demand for our sheet has been so incalculably larger than we could have anticipated, that we found ourselves rapidly exhausting our supply, and under the imperative necessity of reserving all that was left of our printing paper for our Weekly and Steamer Editions. Even these Editions, we have been obliged to cut down to a number very far below the demand. In a few hours after our Steamer paper is ready, it is all sold at our counter. Let our friends here and at home rely that no effort on our part shall be wanting to give them larger editions as soon as possible.

The Election in San Francisco,

Has resulted, as will be seen by the figures below, in the success of the whole ticket opposed to the "people's ticket," by a plurality of from about six to eight hundred. The total number of votes cast in San Francisco, as we learn, about 3,300. The scattering vote which we have not yet been able to obtain exactly, is very large. There seems to have been little concert of action and little organization among the friends of the "people's ticket." This circumstance led them, we think, to undervalue both the strength of party feeling and the extent of organization existing among their opponents. The day of election was rainy, and this fact told, we believe, considerably against the people's ticket. The result however is far too decisive to warrant the belief that any merely accidental circumstances could have changed it. The character of the constitution framed by the convention and now unquestionably ratified and adopted by the people, in our judgment, settles fully, as we have already stated in our columns, the ascendancy of the principles of the

democratic party in California, but we were not prepared to believe before the election, that the community, even of San Francisco was at this time so ready as it has proved to be to enter into a democratic party organization. We do not yet by any means believe, however, that party organization will be found to be nearly as strong in any other part of the state. It will be observed that in San Francisco only about 2000 votes out of the whole number polled were cast in favor of the constitution. We believe this disproportion to be owing entirely to the circumstance that many tickets were inadvertently issued on which the words "for the constitution" were by mere accident omitted.

We regard it as almost certain that Burnett is elected Governor; and we think that either McDougal or Roman, the candidate of the San Joaquin district is elected Lieutenant Governor. Nor do we believe that either of these results will be regarded with dissatisfaction by any large portion of the community.

Of the candidates for Congress, Price, undoubtedly, at present, appears to have far the best chance of an election. As far as we can learn, the chance of Morse and Wright is about equal, but nothing upon this point can yet be stated with any degree of certainty. The difference between these three gentlemen, (and the remark applies equally to Mr. Gilbert,) is a matter of mere personal preference. They are all four democrats.

The election has passed off with an entire good order and quietness every way gratifying and honorable to our community, and worthy of all emulation and imitation in the cities of the Atlantic States.

We learn that General Vallejo is elected to the State Senate in the Sonoma district, and that Walker and Reddell on the same ticket are elected to the Assembly. It will be recollected that Gen. Vallejo presided at the meeting of the friends of Mr. King, called without distinction of party, from which the People's Ticket emanated; though the Sonoma ticket was made up, we understand, without any direct connexion with the People's Ticket here. Gen. Vallejo, we believe, is himself ranked as a democrat.

We subjoin the returns of this city as far as received, and shall give those of other districts, together with the scattering vote here, as soon as possible.

FATAL ACCIDENT.—We have received a letter from Dry Creek, signed John H. Carroll giving the particulars of a melancholy accident which is said to have occurred at that place on the 25th of last month. It appears that three men who were at work in partnership as miners on that creek, messed and slept together in the same tent. At about two or three o'clock in the morning, one of the three, a Mr. James F. Kendall, who had been sick for two or three weeks, put on a buffalo robe and went out of the tent to some bushes leaving the other two, a Mr. A. N. Kent and a Mr. Wright in the tent asleep. In passing through the bushes, Kendall made a noise which awoke Kent, who spoke to Wright, asking what the noise was, and at the same time drew his pistol near his head, and they lay down again. Hearing the noise again, Kent sprang to the door of the tent, pistol in hand, and seeing something moving in the bushes, took it to be an Indian engaged in stealing their provisions which lay in another tent near by. Kent spoke and told the supposed Indian to be off, and as Kendall moved towards him, fired his pistol three times. Wright then sprang up, caught Kent's hand and told him it was Kendall. But his interference was too late, for one of the balls had taken effect in Kendall's right breast, and he died immediately without speaking a word.—Wright procured assistance as soon as possible but all efforts to aid the wounded man were ineffectual.

The sad occurrence produced much excitement among the miners on the creek. They held a meeting on the afternoon of the same day to investigate the matter. Kent was brought before the meeting for trial. A jury of six were empaneled, and counsel appointed for the accused and for the people. The witnesses were Mr. Theodore L. Wright of St. Louis, Mr. Charles Nicolet of Athens, N. Y. and Mr. Vanderburgh of Hudson, the two latter having been called in for assistance immediately after the occurrence. After a full hearing of the case, the jury retired for half an hour and returned with a verdict of "not guilty," adding that the deceased came to his death by a pistol shot fired by Kent, but that Kent thought he was firing at an Indian. After the trial was over and

the accused discharged, a resolution was offered to the meeting and unanimously adopted, expressing condolence with the wife and friends of the deceased, and fully concurring with the jury in their verdict of not guilty, in the belief that the melancholy occurrence was entirely unintentional on the part of Kent. Both Kendall and Kent were from Ashtabula county, Ohio. Mr. Carroll, who acted as Secretary of the meeting, and who has sent to us these particulars, desires us to request the Cincinnati and Connecticut papers to copy the above details.

The Mail by the Steamer.

We find that the article in regard to this matter in our paper of Tuesday, may convey an erroneous impression. Messrs. Howard and Son have never proposed to carry the mail from Chagres as freight. They decline to do so. But they mean if the mail shall be entrusted to them at Chagres to carry it direct to New York, not as freight but as a mail and deliver it there. They have done this in several instances heretofore, trusting to the generosity of Congress and the People for their compensation. We commend to the attention and the favorable regard of this community and of the community on the Atlantic side, this most praiseworthy public spirit on the part of the enterprising Proprietors of this line of Steamers. In the present state of the regular Mail communication, they are rendering the whole country an invaluable service.

From the Sandwich Islands.

We have received full files of the Polynesian up to October 20th. We acknowledge the courtesy of our cotemporary at Honolulu as shown in his complimentary notices of our journal. He may rely upon having the latest intelligence from the Atlantic side, which our "News" can give him. We find no occurrences of special interest at this time at the Islands. The Polynesian of October 6th says:

"We have no special domestic or foreign news to announce this week to our readers. Our Islands are in a very quiet state, both physically and politically. No volcanic eruptions.—no outbreaks of the body politic,—all quiescent and thriving. The weather, for the few plantations that exist, is said to be favorable, and crops are doing well. Sugar is being made and brings a good price. Goods of almost all kinds are abundant, and judging from the frequent auctions, there is little sale for them, except by forcing them off. Importers are wearing rather a serious look, and the prospect seems to be, that Honolulu promises to be the dernier resort for multitudes of cargoes that have come into the Pacific in search of a market. We anticipate great loss on goods this fall, on account of the markets being overstocked and the demand exceedingly limited. The Hawaiians are a poor people, and their consumption of foreign productions is quite limited. So let those who are thinking of shipping goods from California, or elsewhere, here, not be disappointed if they come to a bad market."

The Weather, &c.

The rainy season seems to be fairly setting in and no language can describe the muddiness of our streets. It is something

altogether unique and Californian. No mere Atlantic man hath ever seen the like. But there is an offset. When it does not rain—and that is just about half the time—the weather is not only fine, but it is the weather of a well advanced Southern spring. Just now in the middle of November, the hill-sides around our city which have been for months almost entirely bare of vegetation from the drouth, are putting on the green vesture of an Atlantic April or May. It seems like a complete reversal of the order of the season, in the Northern Hemisphere.

We subjoin a record of the Thermometer of a few days past.

For the Pacific News.

Thanksgiving Day.

We welcome it in California! To read the Governor's Proclamation reminds us of home, where we used to read it and hear it in public, every year, at the close of harvest.

We cannot, this year, gather round those ancient firesides and festal boards that have welcomed us always before, but we can observe Thanksgiving in our new home, and we rejoice that the Governor has issued a proclamation, appointing the day.

And we have most abundant reason for thanking.

When, in that assembly of pilgrims where the observance of the day was first voted, many desired to appoint a public fast—a farmer, a man of plain sense, rose and remarked that the inconveniences

they suffered, and concerning which they had so often wearied Heaven with their complaints, were not so great as might have been expected—that the earth began to reward their labors, and to furnish liberally for their sustenance—that the seas and rivers were full of fish—the air sweet, the climate wholesome—above all, *they were in the full enjoyment of liberty, civil and religious.*—He therefore thought it would be more becoming, instead of a day of *fast*, to appoint one of thanksgiving to that Divine Being to whom they owed all these things.

Many now in California have reason to thank God for bringing them safely through a long journey hither. Gratitude is due from all, that no general sickness has prevailed among us, and that we have been delivered from the scourge of that pestilence which has visited so many of the United States.

There has been a prevalence of good order among us, and a general success in business, and the prospect is fair, before us of a rapid progress, as a State, in everything that constitutes prosperity. It is fitting then, that we observe a day of Public Thanksgiving, according to the custom of our fathers.

A Great Vision made Reality.

In 1841 a very distinguished orator, in the Senate of the United States, in a speech upon the Pre-emption Bill, uttered the following prophetic language. What was prediction then, is about to become history now.

"If to the other ties that bind us together as one people, be superadded the powerful interest springing out of a just administration of our exhaustless public domain—by which, for a long succession of ages, in seasons of peace, the states will enjoy the benefit of the great and growing revenue which it produces, and in periods of war that revenue will be applied to the prosecution of the war—we shall be forever linked together with the strength of adamant chains. No section, no state, would ever be mad enough to break off from the Union, and deprive itself of the inestimable advantages which it secures. Although thirty or forty more of the new states should be admitted into this Union, this measure would cement them all fast together. The honorable member from Missouri near me, (Mr. Linn,) is very anxious to have a settlement formed at the mouth of the Oregon, and he will probably be satisfied at no very distant day. Then will be seen members from the Pacific States scaling the Rocky Mountains, passing the country of the grizzly bear, descending the turbid Missouri, entering the father of rivers, ascending the beautiful Ohio, and coming to this capitol to take their seats in its spacious and magnificent halls. Proud of the commission they bear, and happy to find themselves here in council with friends and brothers and countrymen, enjoying the incalculable advantages of the great confederacy, and among them their annual distributive share of the issues of a nation's inheritance, would even they, the remote people of the Pacific, ever desire to separate themselves from such a high and glorious destiny?"

Meeting of Master Builders.

San Francisco, Nov 12th, 1849.

The following named gentlemen, to wit: Messrs. W. W. Fowler, Reuben Clark, Morris, Reynolds, W. P. Waters, Donald Grant, Wm. Butcher, A. Kenning, Shuter, Hewitt, H. F. Williams, Charles G. Scott and Benjamin Carman, met for the purpose of taking into consideration the measures which were adopted by the journeymen carpenters on the evening of the 10th instant.

Messrs. Charles G. Scott and H. F. Williams were unanimously elected chairman and secretary of the meeting. The chairman, in a brief and explicit manner, stated the object of the meeting, and requested the several gentlemen present to express their views with reference to the best measures to be adopted under existing circumstances. The opinions of every gentleman present were freely given, whereupon the sense of the meeting was obtained, and the following preamble and resolutions were presented and unanimously adopted, viz:

PREAMBLE AND RESOLUTIONS.

Whereas, the journeymen carpenters of the town of San Francisco have deemed it prudent to demand of their employers the sum of sixteen dollars per day, instead of twelve, which has been the standing wages of the town for several months past; and we, the undersigned, master builders of the town of San Francisco, deem their measures highly impolitic, having a tendency to injure not only themselves, but their employers, and the community at large. Therefore,

Be it Resolved, That we will not pay to journeymen carpenters more than twelve dollars per day, unless as a mere matter of preference.

Resolved, That the proceedings of this meeting be published in the next copy of the Pacific News and Alta California newspapers.

Be it further Resolved, That a committee of three be appointed, to present the above preamble and resolutions to the master carpenters of this place, who are not present on this occasion, in order to give them an opportunity to attach their signatures, if they feel so disposed, before they are submitted for publication.

Messrs. Grant, Fowler & Clark were appointed as said committee.

Signed by CHAS. G. SCOTT, Ch'n.

H. F. Williams, Secretary.

THE HOSPITAL OF SAN FRANCISCO.

W. H. STIVERS, M. D. Resident Physician. Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and near the Post Office.

THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and distinct from those devoted to patients.

The Hospital of San Francisco is the first, and, in fact, the ONLY Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where comfortable quarters, good nursing, watchful do all that human effort can do to alleviate suffering and restore to health.

The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.

TERMS.
1st class, one in a single room, neatly furnished, \$16.00 per day.
2d class, two in a room, neatly furnished, each, \$10.00 per day.
3d class, in wards, neatly furnished, each, \$5.00 per day.

In all surgical cases, and cases of Insanity, there will be an extra charge.

STOCKTON FORWARDING, COMMISSION AND REAL ESTATE AGENCY.

The subscribers, under the firm and style of HEATH and EMORY, have completed their arrangements in the city of Stockton, and are now prepared, at their office and warehouse, at the corner of first and El Dorado sts., to freight to any part of the southern mines, comprising the Moquelemas, Angel's and Murphy's Camps, Wood's Creek, the Calaveras, Stanislaus, Tuolumne, Merced, Mariposa and King's rivers. Teams and pack mules will start from their establishment every day for the above places.

The prices of freight, the time of starting, and all other matters of interest connected with the mines, or the facilities of getting to or from them, may be ascertained at their office. Goods and baggage will also be stored with great care, the subscribers having for that purpose erected a large, water-proof, plank-floored warehouse.

The subscribers also offer for sale 150 of the most valuable lots in the city, located in very desirable positions on both sides of the river. A map of the city may be seen at the office.

SUPPLEMENT TO THE PACIFIC NEWS.

VOL. 1.

SAN FRANCISCO, ALTA CALIFORNIA. NOVEMBER 15, 1849.

NO. 36.

REVIEW OF THE MARKET.

REPORTED BY WM. H. GALLAHER,
Editor of the "Price Current."

Ashe's—The inquiry for pots still continues. A few casks only have appeared in the market.

The demand for saleratus is still active; the supply is moderate, and prices are gradually advancing.

Building Materials—The market is almost bare of every description of lumber, and prices have greatly advanced. All that is offered finds ready sale at our quotations.

Bricks, are quick at \$65 to \$70 landed. Lime and cement are in request, and the supply very limited.

Boots and Shoes—All descriptions of heavy boots are much wanted. There are but few of the better qualities in the market, and the late rains have caused prices to advance. The prices in our list are fully sustained.

Coal—There is very little demand for coal; of which there is a fair supply.

Coffee—There has been considerable activity in coffee since our last, and prices are improving.

Candles—The stock of candles of all kinds is exhausted, and all that appear in market are readily purchased at our quotations.

Domestic Goods are much wanted; the stock is small, and prices are improving.

Fish—There is an active demand for fish of all kinds, and but few in the market. All that are offered find quick sale at our quotation.

Flour and Meal—The stock of flour on hand is moderate; but prices have continued to advance daily since our last. We notice sales of 200 bbls. Chili, at \$40, and 350 bags at \$39.50. We also notice the sale at auction of 110 bbls. pricked Richmond, at \$30.

Corn Meal—Sound kiln dried is firm at \$16; demand light.

Fruit—Dried fruits of all kinds are much wanted; the demand is at all times brisk, and our quotations are fully sustained.

Molasses—Remain without change since our last, small packages, however, would bring an improved price.

Metals—The stock of bar iron is very large and the demand light. Sheet iron, zinc and tin plates have slightly advanced since our last, and are daily improving.

Oils and Paints—There is a moderate demand for these articles, and prices have improved a shade since our last.

Provisions—There has been great activity in the provision market, and prices for all the staple articles have been steadily advancing. The stock of flour on hand is moderate, and we do not think prices will reach a higher point. The stock of pork is light, and prices may remain firm until the rainy season fairly sets in and transshipment to the mines ceases, the demand will then become comparatively light and prices decline. There is a very large stock of pilot and navy bread on hand, and prices, within a few days, have slightly improved. The remarks in our last, in regard to provisions, have been fully sustained.

Soap—There is an improved demand for good "brown", and prices are a shade better—of fancy soaps there is a large stock on hand, and no demand.

Sugars—All descriptions are much wanted; the market is almost bare, and prices are rapidly advancing.

Spices—There is a large supply on hand, with a limited demand.

Tobacco—The market is overstocked, although there has been considerable demand within the last month, the daily receipts prevent the stock from decreasing.

Wines and Liquors—There has been a decided improvement in these articles; a moderate amount of business has been done since our last, at improved prices.

Woolen Clothing—The stock of good woollen clothing is very light. There is always a steady demand and large invoices would find quick sale at high prices.

Exchange—A fair amount of business is being done for this steamer. Exchange on London 48d 60 days, par. Paris 4f 85, 60 days par. Valparaiso, 8 to 10 per cent discount. Gold Dust at \$16 per oz.

ASPENWALL STEAM TRANSPORTATION LINE.
The steamer "Captain Sutter," the first of this Line, being now completed, will make her first trip to Stockton on Thursday, the 15th instant.
For speed and accommodations she is one of the most desirable boats upon the river, while her light draught of water and capacity for freight renders her, in every way, adapted to the route.
She will soon be followed by the other steamers of the same Line, viz:
"El Dorado,"
"Hartford,"
"Georgiana,"
All of which, being constructed with special reference to their various routes, offer every facility to the traveller and shipper.
For all information, and for freight or passage, apply to James Blair, agent; office head of central wharf. xxxv tf

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if his publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.
Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, San Francisco.
HIRAM GRIMES.

NOTICE TO SQUATTERS.—The undersigned begs leave to caution the public in general against squatting upon his farms or ranches, as follows: One farm on the river Sacramento, extending to the mouth of Feather river and American Fork, known as Rancho del Paso.
Also, two ranches on the San Joaquin river; one of 3 leagues, granted to Don Hernandez by Gov. Micheltoreno, and adjoining the same; being one undivided half of 8 leagues granted by Gov. Micheltoreno to Balentine Heguirra, near the Pueblo pass.
All persons are hereby notified to abstain from taking possession of any portion thereof, at the peril of being proceeded against according to law.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarradero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES, or J. HALLS.
iv tf

WAREHOUSE SITES.—Portions of the beach and water lots on California, Sansome, Pine and Battery streets, are for sale on liberal terms, for immediate improvement. If required, the vendors will furnish pile foundations of the description now under the building at the corner of California and Sansome sts. Apply at Howard's building, central wharf, to GILLESPIE & CO. xv tf

LANDS ON SALE.—26 lots in Pueblo San Jose. 56 lots in Sonoma. Several allotments in Suisun. 1,000 lots in the town of Boston, opposite Sacramento City.
2 farms on the San Joaquin.
12 do in Rancho del Paso.
11 lots in San Francisco.

DRUGS, MEDICINES AND PAINTS.—E. D. BYRNE, & Co., respectfully give notice to the public that they have opened a store for the transaction of the above business, at Sacramento city, on 21 street, between J. and K. streets, and will at all times keep on hand as large and complete a stock as can be found in California. The selection of medicines has been made with the utmost care, and the genuineness and purity of the articles will be guaranteed. Particular attention paid to orders from the mines, and from physicians, and prescriptions put up in the most careful manner.
ii u

DESIRABLE PROPERTY TO LEASE.—The large and commodious building now nearly completed, situated on the high ground of Montgomery, between Clay and Washington streets, 42 feet front by 105 in depth, having all the requisites for a Hotel, there being a large room in the building adapted to meetings of any kind, and likewise many lodging rooms; can be leased if application is made immediately to BACKUS, GARDINER & HARRISON, Auctioneers and Commission Merchants.
xxv tf

CHURCH of superior quality, for sale by G. H. BEACH. xxxi tf

ALVESO.—The town of Alviso, situated at the head of the bay of San Francisco, will shortly be offered to the public in lots suitable for building purposes. The locality of this place possesses advantages of a nature so positive and apparent that a brief description must satisfy every one of the certainty of its becoming, ere long, a town of the highest importance. At the head of the great bay of San Francisco, on the Guadalupe river—a stream running directly through the centre of the town, and navigable at all seasons of the year to vessels drawing 12 feet of water—the depot and business headquarters of the two finest valleys in California—the Santa Clara and Pueblo—where everything required for their already numerous population, must be received; convenient of access to the gold mines, and directly on the route between them and San Francisco; with a climate unequalled even in Upper California; with pure water; free from inundations at all seasons; leagues of woodland within a convenient distance, with mills which even now furnish lumber at one-third the price in San Francisco. The town of Alviso must grow into importance. The wants of the extensive country around, constantly increasing, require a commercial town at this point—the only one where such a town can be located.
The place will be immediately surveyed and laid out into lots of convenient size, by C. S. Lyman, Esq., surveyor, and maps will be published for the inspection of the public as soon as practicable. Contracts have been entered into for the erection of warehouses and buildings, and a substantial bridge is now being erected, connecting the two portions of the town. The title is perfect and indisputable, having been derived directly from the Mexican government, to persons who have since resided on the premises for nearly twelve years. Persons desiring to purchase will have preference in choice of lots in the order of the reception of their names by the undersigned. Address, post paid.

LOTS FOR SALE in the city of south San Francisco, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south San Francisco is situated two miles south of the city of San Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of San Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities for discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of San Francisco to the Pueblo of San Jose passes through south San Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to (in this road you travel along a beautiful valley of firm grass land to the Puertuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. A good House with everything necessary for the accommodation of visitors is now established at south San Francisco.

RAKE CHANCE for investment of capital for business men. Business calling the subscriber to the United States, he offers the following most desirable property for sale.
The Buena Vista Rancho, situated on Jackson creek between Dry creek and the Mokelumne river, on the main road leading from Sutter and Sacramento river, to the Mokelumne, Stanislaus, Stockton, and the San Joaquin. On the ranch there is two large new corrals, large log buildings, three hundred head of beef cattle, three wagons and teams, horses, pack mules, saddles, etc. A large lot of provisions, mining goods, and Indian trade. This rancho is one of the most important trading posts in the mining district; the ranch is well supplied with water and grass; several hundred head of horses are pastured on the place, belonging to the miners, and the trade with miners and the Indians is very extensive; the roads from Sutter, Sacramento city and Stockton, are very superior. The above offers a rare opportunity for business men to invest capital; this trading post has been established over twelve months, and the most central post in the mines. For further particulars apply to E. B. Winston, Esq., San Francisco; Geo. McKinstrey, Jr. Esq. town of Sutter, or W. H. DIGGES, on the ranch.

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been prepared by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold, and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.
There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.
There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.
The purchasers will be required to make improvements within a specified time.
The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and San Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, San Francisco, and at the city of New York.

TOWN OF SUTTER.
(LATE SUTTERSVILLE.)
This town has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcadero point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines.
The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.
The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.
Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.
Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and San Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.
